Geier Must Make Choice; Reported More Japanese War-Vessels Coming

[Associated Press by Commercial Pacific Cable.]

WASHINGTON, D. C., Nov. 3.—The state department has notified the Japanese embassy here that the German cruiser Geier has been given a specified time in which to interne or leave the port of Honolulu. The time limit, however, is not announced.

The local Japanese consulate expressed no surprise this morning when informed by the Star-Bulletin of the contents of the foregoing despatch from Washington. Such an action on the part of the United States government relative to the movements of the Geier, said the consul-general, was expected by him to shortly be forthcoming.

The consul-general had no comment to offer regarding the action, saying that he has no authority to make any statement.

In reply to a query, the consul-general stated that the Japanese battleships Hizen and Agama expect to remain off the port of Honolulu indefinitely. He has received information, he added, that the vessels soon are to be reinforced by other Japanese battleships which belong to the same squadron as the Hizen and the Agama.

The state department's action was intimated in an Associated Press despatch last night from Washington, which said:

"Believed repairs to the Geier have progressed to such point commander must elect to run the gauntlet of the Japanese or intern."

Georg Rodick, German consul, said this morning that there was nothing to give out regarding the Geier.

Star-Bulletin to Show Quick Election Returns Tonight--Everybody Welcome!

The Star-Bulletin will show election returns tonight on an illuminated screen at the building at Diamond & Co., on King street, between Fort and Bethel streets—the same place where the primary returns were given. The figures will be flashed on the screen by the same rapid method that proved so effective at the primary election, this feature of the service being furnished by Eddie K. Fernandez. Join the crowd and GET THE FIRST RETURNS, THE BEST RETURNS, AT THE MOST CONVENIENT PLACE IN THE CITY.

The Star-Bulletin's election headquarters are in the Waity building, Ruckelshaus Company's office. Here returns will be received from every precinct on this island as well as from the other islands. The election headquarters' telephone number is

4973

Those who are not down town to watch the returns are cordially invited to telephone this number—4973—and get the news.

The Star-Bulletin requests precinct workers, watchers and others to telephone in the news from time to time during the evening as the count progresses in each precinct. This will greatly facilitate in handling the returns speedily and accurately.

The polls close at 5 o'clock. Shortly thereafter the figures will begin to come in. By 6:30 or 7 o'clock the count will have progressed far enough so that results can be given in rapid-fire order.

JOIN THE STAR-BULLETIN CROWD! EVERYBODY WELCOME! TELEPHONE 4973.

LARGE VOTE IS POLLED EARLY TODAY

No Apparent Excitement But the Interest Found General in Both Districts

MANY FIRMS CLOSE UP REGARDLESS OF DECREE

But Two "Slates" Noticeable, With Bourbons and G. O. P. Each Claiming Victory

In quietness, general interest and fairly heavy early voting today's election has appeared almost a replica of the primary of last September. A canvass of the polling places throughout the fourth and fifth districts by the Star-Bulletin discovered no undue excitement, but a generally large interest, with the average number of ballots polled running about equal to that of the primary. In one or two precincts, notably the first and sixth of the fourth, both of which contain a large electorate, nearly half the possible vote had been cast before noon. The votes were handled easily by the officials as rapidly as they were cast, and without exception there was no confusion. So far as could be ascertained every polling place but one—that at Kaimuki—opened promptly at 8 o'clock, and at the latter place the booths were ready for business 15 minutes after the hour. The delay at that point was due to the forgetfulness of the chairman of the election board, who did not discover until he was ready to open the booth that he had not obtained the key from Secretary Thayer. An automobile was hastily requisitioned and a hurried trip made to the capitol building, while a crowd of considerable proportion stood around patiently waiting for a quarter of an hour.

Just two "slates" were conspicuous

JAPANESE REPORTED IN FLIGHT

Question of Neutrality Involved Through Aviation Exhibit Rumored Made Today

FEDERAL OFFICIALS IN A HURRIED CONFERENCE

According to Report Nipponese Birdmen Visited Cruiser Hizen Out at Sea

A report from reliable sources, to the effect that a flight had been made this morning by one or both of the Japanese aviators who were to have given an exhibition flight at Moanalua last Saturday, resulted in a conference of territorial and federal officials this morning. Questions of neutrality enter into the situation, the possibility of observation and communication with the Japanese cruiser Hizen being considered.

The conference this morning was held at the office of Collector of Customs M. A. Franklin and attended by Gov. L. E. Pinkham, Col. J. W. Jones, Assistant United States District Attorney M. A. Thomas, Collector M. A. Franklin, Special Deputy Collector Raymer Sharp, Sheriff Charles Rose and Captain of Detectives A. McDuffie.

The report which reached the city early this morning, was that a large aeroplane, bearing two Japanese, rose from a position near the Moanalua polo field shortly before dawn this morning, winged its way to a distance stated at about 2000 feet into the air, then described a large and widening circle, finally taking a direct course over the United States naval base at Pearl Harbor, past Fort Kamehameha and to the open sea where the huge bird-like machine is declared to have completed several circuits of the Japanese battleship Hizen, at that time four miles out to sea, the aviators returning to the place of starting within an hour.

It was also rumored this morning that another flight was scheduled for this afternoon, but it is not likely, under the circumstances that this will be attempted.

Those who profess to be eye-witnesses to the spectacular flight made from Moanalua field this morning declare that the Japanese aviators, P. Samura and T. Inouye, were in charge of the machine which about three weeks ago reached this city after having been used along the Pacific coast for exhibition purposes.

The machine has been kept in an improvised hangar near the polo field. Yesterday several Japanese mechanics spent some hours in tuning it up and adjusting its propeller after it had been partially taken apart to insure its removal.

E. D. TENNEY will return to Honolulu from a visit to the mainland in the Matsushita next Thursday.
